MANAGEMENT

THE WORLD'S LEADING METAL RECYCLER

SERVING THE MANUFACTURING, ENGINEERING AND INDUSTRIAL SECTORS

Providing a Trusted,
Quality Service Worldwide.

ABOUT SIMS METAL MANAGEMENT

Over one hundred years ago in 1917, Albert G.Sims started a small recycling business in Sydney, Australia. Now known as Sims Metal Management and we are the world's leading recycler of metals and electronics.

We serve some of the world's leading manufacturing, engineering and fabrication companies. Offering end-to-end metal recycling solutions.

Backed by over 200 facilities, We have operations in over 20 countries.

If you are looking for metal recycling services, project support, reliable collections, quick payments, easy reporting and professional advice, contact us today **0800 008 7223**.

METAL RECYCLING FACILITIES

We have over 200 metal recycling facilities, across the USA, UK, Australia and New Zealand.

MANAGEMENT

OUR SPECIALIST SERVICES

Our specialist Industrial Services teams can offer complete end-to-end solutions for customers. An example of our services include:

Collection and Processing

Appropriate Logistics, storage and container, safe material handling solutions and recycling routes.

Free Site Audits

Detailed assessments of material types, handling requirements, service options and potential value recovery.

Account Management & Project Support Teams

One point of contact – supported by regional project management teams.

National Coverage

National network of depots and can service national or multi-site group contracts.

Reporting and Compliance

Aggregated reporting for loads, materials and total value recovery. Full Compliance reporting, covering Health, Safety, Environment and Sustainability data.

Secure Destruction Services

We can help you securely destroy any prototypes, proprietary technology or sensitive and classified materials (non-hazardous). Our in-house destruction capabilities can securely destroy any size of asset.
